1. CORPORATE INFORMATION

ATS Automation Tooling Systems Inc. and its subsidiaries (collectively "ATS" or "the Company") operate in one segment: Automation Systems. The Automation Systems segment designs and builds custom-engineered turn-key automated manufacturing and test systems and provides pre-automation and post-automation services to its customers. See note 17 to the interim condensed consolidated financial statements.

The Company is listed on the Toronto Stock Exchange and is incorporated and domiciled in Ontario, Canada. The address of its registered office is 730 Fountain Street North, Cambridge, Ontario, Canada.

The interim condensed consolidated financial statements of the Company for the three and nine months ended December 27, 2015 were authorized for issuance by the Board of Directors on February 2, 2016.

2. BASIS OF PREPARATION

These interim condensed consolidated financial statements were prepared on a going concern basis under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, and financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss or other comprehensive income. All interim consolidated financial information is presented in Canadian dollars and has been rounded to the nearest thousands, except where otherwise stated.

Statement of compliance
These interim condensed consolidated financial statements are prepared in accordance with International Accounting Standard ("IAS") 34 – *Interim Financial Reporting*. Accordingly, certain information and disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), have been omitted or condensed. These interim condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Company for the year ended March 31, 2015.

Standards adopted in fiscal 2016
The accounting policies adopted in the preparation of these interim condensed consolidated financial statements are consistent with those followed in the presentation of the Company's annual consolidated financial statements for the year ended March 31, 2015, except as noted below:

(a) IAS 19 – *Employee Benefits*

Effective April 1, 2015, the Company adopted the amendments to IAS 19 – *Employee Benefits* ("IAS 19"). The amendments require an entity to consider contributions from employees or third parties when accounting for defined benefit plans. When the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognize such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service.

The application of the amendments to IAS 19 had no impact on the interim condensed consolidated financial statements of the Company.

(in thousands of Canadian dollars, except per share amounts - unaudited)

Basis of consolidation
These interim condensed consolidated financial statements include the accounts of the Company and its subsidiaries. Subsidiaries are those entities where the Company directly or indirectly owns the majority of the voting power or can otherwise control the activities. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. Non-controlling interests in the equity and results of the Company's subsidiaries are presented separately in the interim consolidated statements of income and within equity in the interim consolidated statements of financial position.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. All material intercompany balances, transactions, revenues and expenses and profits or losses, including dividends resulting from intercompany transactions, have been eliminated on consolidation.

3. CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the Company's interim condensed consolidated financial statements requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities at the end of the reporting period. However, uncertainty about these estimates, judgments and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, have not changed from those disclosed in the Company's fiscal 2015 audited consolidated financial statements. The Company based its estimates, judgments and assumptions on parameters available when the interim condensed consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the estimates when they occur.

4. ACQUISITION

On September 1, 2014, the Company completed its acquisition of 100% of the shares of M+W Process Automation GmbH and ProFocus LLC (collectively Process Automation Solutions or "PA"). PA is a global provider of engineering-based automation services and solutions focused on the control, performance monitoring and measurement of critical production processes. It has been integrated with the Company's existing Automation Systems segment. The acquisition is aligned with the Company's stated strategy of scaling its position in the global automation market by adding to its services and life cycle management capabilities across several core elements of the customer value chain.

The total cash consideration paid for PA was $367,210 (253,139 Euro). At the close of the transaction, $364,626 (251,241 Euro) was paid, with the remaining balance paid in May 2015. In addition, the Company incurred $9,224 of transaction costs in fiscal 2015 related to the acquisition which were recognized in selling, general and administrative expenses.

Cash used in investing activities was determined as follows:

Cash consideration	$	367,210
Less cash acquired		(11,829)
	$	355,381

(in thousands of Canadian dollars, except per share amounts - unaudited)

The purchase cost was allocated to the underlying assets acquired and liabilities assumed based upon the estimated fair values at the date of acquisition. The Company determined the fair values based on discounted cash flows, market information, and using independent valuations and management's best estimates.

The allocation of the purchase price at fair value is as follows:

Purchase price allocation		
Cash	$	11,829
Current assets		66,350
Property, plant and equipment		3,233
Intangible assets with a definite life		
Technology		290
Customer relationships		100,140
Other		12,564
Current liabilities		(55,831)
Deferred income tax liability		(31,689)
Other long-term liabilities		(1,833)
Net identifiable assets		105,053
Residual purchase price allocated to goodwill		262,157
	$	367,210

Non-cash working capital includes trade accounts receivable of $21,924, representing gross contractual amounts receivable of $22,210 less management's best estimate of the contractual cash flows not expected to be collected of $286.

The primary factors that contributed to a residual purchase price that resulted in the recognition of goodwill are: the existing PA business; the acquired workforce; access to growth opportunities in new markets and with existing customers; and the combined strategic value to the Company's growth plan. Approximately $66,000 of the amounts assigned to goodwill and intangible assets are expected to be deductible for tax purposes.

This acquisition was accounted for as a business combination with the Company as the acquirer of PA. The purchase method of accounting was used and the earnings have been consolidated from the acquisition date, September 1, 2014.

5. DIVESTITURE

During the three months ended June 28, 2015, the Company sold its Swiss-based subsidiary, ATS Wickel-und Montagetechnik AG, which has previously been recorded as assets held for sale, for cash proceeds of $2,274 (1,716 CHF).

12. BANK INDEBTEDNESS AND LONG-TERM DEBT

On June 17, 2015, the Company completed a private placement of US$250,000 aggregate principal amount of senior notes (the “Senior Notes”). Transaction fees of $7,200 were deferred and will be amortized over the term of the Senior Notes. The Senior Notes are unsecured, were issued at par, bear interest at a rate of 6.50% per annum and mature on June 15, 2023. ATS used the majority of net proceeds from the Senior Notes to repay amounts outstanding under its senior secured credit facility, with the balance to be used for general corporate purposes. The Company may redeem the Senior Notes, in whole at any time or in part from time to time, at specified redemption prices and subject to certain conditions required by the Senior Notes. If the Company experiences a change of control, the Company may be required to repurchase the Senior Notes, in whole or in part, at a purchase price equal to 101% of the aggregate principal amount of the Senior Notes, plus accrued and unpaid interest, if any, to, but not including, the redemption date. The Senior Notes contain customary covenants that restrict, subject to certain exceptions and thresholds, some of the activities of the Company and its subsidiaries, including the Company's ability to dispose of assets, incur additional debt, pay dividends, create liens, make investments, and engage in specified transactions with affiliates. Subject to certain exceptions, the Senior Notes are guaranteed by each of the subsidiaries of the Company that is a borrower or has guaranteed obligations under the Credit Facility.

The Company's senior secured credit facility (the "Credit Facility") provides a four-year committed revolving credit facility of $750,000. The Credit Facility is secured by (i) the Company's assets, including real estate; (ii) assets, including certain real estate, of certain of the Company's North American subsidiaries; and (iii) a pledge of shares of certain of the Company's non-North American subsidiaries. Certain of the Company's subsidiaries also provide guarantees under the Credit Facility. The Company pays a standby fee on the unadvanced portions of the amounts available for advance or draw-down under the Credit Facility at rates ranging from 0.29% to 0.68%.

The Credit Facility is subject to a debt to EBITDA test and an interest coverage test. Under the terms of the Credit Facility, the Company is restricted from encumbering any assets with certain permitted exceptions. The Credit Facility also limits advances to subsidiaries and partially restricts the Company from repurchasing its common shares and paying dividends. At December 27, 2015, all of the covenants were met.
