SUPERTRAK™ CONVEYANCE NAMED THE WORLD'S GREATEST

Cambridge, ON (July 22, 2019) - ATS Automation Tooling Systems Inc. (TSX: ATA) ("ATS") announced today that its SuperTrak Conveyance platform has been selected to be featured on *The World's Greatest*, a national television series highlighting top people, places and products around the world. The episode will highlight how ATS and SuperTrak Conveyance continue to drive innovation and offer manufacturers the opportunity to automate their processes in ways that were never before possible. The episode will air on July 22nd and August 5th on Direct TV (channel 305) and the Dish Network (channel 250).

"It's an honour to be named as one of *The World's Greatest* in conveyance," said Chris Hart, President Life Sciences at ATS. "Providing world-class solutions to many of the world's largest and most successful companies, we are highly dedicated to finding unique solutions for our customers and the SuperTrak technology allows us to do that."

"We understand that SuperTrak Conveyance is at the foundation of what our customers are trying to do. As inventors of linear motion technology, we are never satisfied. We continue to drive innovation so that our customers get better as we do," said Simon Drexler, Director of Linear Motion Technology Products.

For over forty years, ATS has established itself as a leading global custom automation integrator. Having developed long lasting relationships with their customers has allowed ATS to design and build complex automation solutions that, in turn, provide many of the products used in everyday life. *The World's Greatest* prides itself on allowing audiences to connect with, and understand companies and people behind products such as SuperTrak Conveyance.

SuperTrak Conveyance platforms fundamentally change the way an automation cell is designed, making them smaller and more efficient. What makes the platform great is its industry leading combination of speed and precision. Manufacturing systems that utilize SuperTrak Conveyance as their foundation see dramatic performance improvements in throughput and quality.

ATS continues to drive innovation and push the boundaries with the SuperTrak platform. Tune in on July 22nd and August 5th to learn more about why ATS' SuperTrak Conveyance has been recognized as one of *The World's Greatest*. [Find the listing in your area here.](#)

About ATS

ATS is an industry-leading automation solutions provider to many of the world's most successful companies. ATS uses its extensive knowledge base and global capabilities in custom automation, repeat automation, automation products and value-added services, including pre-automation and after-sales services, to address the sophisticated manufacturing automation systems and service needs of multinational customers in markets such as life sciences, chemicals, consumer products, electronics, food, beverage, transportation, energy, and oil and gas. Founded in 1978, ATS employs approximately 4,400 people at 23 manufacturing facilities and over 50 offices in North America, Europe, Southeast Asia and China. The Company's shares are traded on the Toronto Stock Exchange under the symbol ATA. Visit the Company's website at www.atsautomation.com.
